

Educational Supervisor and DPP Training

High quality training at exceptional value

£295 per
course

Educational Supervisor Training

PrescQIPP's Educational Supervisor course provides practical, evidence-based training to develop the confidence, skills and judgement needed to effectively support, supervise, assess and develop learners in real-world NHS practice.

Module 1. Becoming an effective supervisor

Module 2. Understanding learner needs and developing potential

Module 3. Creating a high quality learning environment

Module 4. Observe, assess and feedback: Turning practice into progress

Module 5. When things get tough: Managing concerns and the challenging learner

Designated Prescribing Practitioner (DPP) Training

Our DPP training course equips Designated Prescribing Practitioners with the knowledge, skills and confidence to provide high-quality supervision, support safe prescribing and develop the next generation of prescribers.

Module 1. From clinician to educator: What makes an excellent DPP?

Module 2. Know your prescriber: Assessing capability and learning needs

Module 3. Think like a prescriber: Developing clinical reasoning and decision-making

Module 4. Observe, challenge and support: Feedback that actually changes behaviour

Module 5. Ready to Prescribe? Managing Risk, Progress and Professional Development

Both programmes offer

- ✓ Short courses: Structured 10 week programmes
- ✓ Evidence based, mapped to national standards and frameworks
- ✓ Delivery by experienced multi-professional clinicians, educational supervisors and DPPs
- ✓ Design by NHS professionals for NHS professionals
- ✓ Practical, interactive, and clinically relevant
- ✓ Online learning, live facilitated workshops, workplace application, and reflection

Join our regular PrescQIPP Educational Supervisors or DPP communities of practice for networking, ongoing support and sustainability in the role.

You will have access to PrescQIPP resources to support excellence in clinical practice, medicines optimisation and prescribing practice.
